

Same money. One missing rail.

SEBI-registered money advice, live on India's Account Aggregator,
for the salaried middle class.

THE PROBLEM

Real advice isn't an app. It's a team.

1 adviser per lakh salaried workers

Everyone else gets an app that shows, and never decides.

TODAY · LIVE

The Account Aggregator made it possible. Finwiser closed the chain.

₹15,000 to retirement

The surplus that actually exists.

DECIDE

One ranking — protection before growth,
liquidity before lock-in.

DEMONSTRATOR A · EPFO

SIMULATION · REAL ENGINE, SIMULATED FEED

His EPF wasn't on the rail. We answered anyway.

55%

of his monthly surplus — the retirement catch-up we asked Rahul for.

DEMONSTRATOR A · EPFO

SIMULATION · REAL ENGINE, SIMULATED FEED

We were wrong.

55% → 34%

the same ask, the month EPF reached the rail.

Net worth ₹31.5L → ₹41.3L on the same money.

₹21,600 a month of EPF contributions no bank statement shows.

Personalisation built on a partial picture doesn't become more accurate. It becomes more confident.

Two holes today: EPF, and the self-employed's declared income.

DEMONSTRATOR B · ITR + GST

DESIGN MOCK · MECHANISM REAL, VALUES ILLUSTRATIVE

She can lock in ₹21,000 a month more.

₹67K → ₹88K

what Priya can safely lock in each month — savings first, expenses after

WITH ITR + GST ON THE RAIL

Lock in ₹88K for my plan

Declared income · ITR + GST returns

Freelance, 34; files ITR and GST. Declared income lifts the engine's income-quality ceiling. Next cohort, not served today.

Band about $\pm 27\%$ → $\pm 7\%$.

WHO THIS INCLUDES

**Today the salaried.
Next, the documented but invisible.**

1.53 crore

active GST registrations · GSTN, June 2025 — the next cohort, not our reach.

58.4% of India's workers are self-employed. Most neither file nor register.

THE ASK

Write EPF as a requestable FI type. We'll test it the week it opens.

- **EPFO** Parser live; no FI type in AA 2.1.0. Spec revision, EPFO onboarding, FIU re-certification.
- **GSTN** Requestable today. Parser to build; GST returns carry turnover, not income.
- **CBDT** Neither schema nor FIP.

We ask for an advisory FIU in the room when the FI type is drafted. What it gives the rail: recurring, non-credit consent demand — a reason to join that isn't a loan.
