

Same money. One missing rail.

SEBI-registered money advice, live on India's Account Aggregator,
for the salaried middle class.

What an advice engine can't see, it can't advise on.

THE PROBLEM

Real advice isn't an app. It's a team.

1 adviser per lakh salaried workers

Everyone else gets an app that shows, and never decides.

SEBI register, Jun 2026 · EPFO payroll, FY25

Advice: SEBI-registered Investment Adviser INA000021331 (Chandrachuda Sarma Yemmanuru Proprietor Finwiser) · Technology: Finwiser Technologies LLP

TODAY · LIVE

Live today: 30+ accounts in, one ranked next move out.

#1 · NEXT BEST RUPEE

₹15,000 a month → **retirement**

this month's first move, for a user with ₹41,300 a month to place

CONNECT

30+ account types, on consent.

DETECT

The surplus that actually exists.

DECIDE

One ranking — protection before growth,
liquidity before lock-in.

DEMONSTRATOR A · EPFO

SIMULATION · REAL ENGINE, SIMULATED FEED

Without his EPF, the engine asked for 55%.

55%

of his monthly surplus — for a retirement gap it could only half see.

DEMONSTRATOR A · EPFO

SIMULATION · REAL ENGINE, SIMULATED FEED

Same engine. Full picture. The ask is 34%.

55% → 34%

Its arithmetic didn't change; its picture did. Without EPF it over-asked by ₹8,679 a month.

Net worth ₹31.5L → ₹41.3L on the same money.

₹21,600 a month of EPF contributions no bank statement shows.

**Personalisation built on a partial picture
doesn't become more accurate.
It becomes more confident.**

Two holes today: EPF, and the self-employed's declared income.

DEMONSTRATOR B · ITR + GST

DESIGN MOCK · MECHANISM REAL, VALUES ILLUSTRATIVE

Declared income lets her safely save ₹21,000 more a month.

₹67K → ₹88K

what Priya can safely set aside first, before expenses

TODAY

Lock in ₹67K for my plan

Inferred income · limited confidence

WITH ITR + GST ON THE RAIL

Lock in ₹88K for my plan

Declared income · ITR + GST returns

Freelance, 34; files ITR and GST. Once declared income reaches the rail, the engine can trust her income — so it can ask her to save more, safely.

Band about $\pm 27\%$ → $\pm 7\%$.

Advice: SEBI-registered Investment Adviser INA000021331 (Chandrachuda Sarma Yemmanuru Proprietor Finwiser) · Technology: Finwiser Technologies LLP

WHO THIS INCLUDES

7 crore savers. No adviser can see their EPF.

7 crore+ EPF savers

EPFO contributing members: 7.37 crore, FY 2023-24 — today's salaried users, the EPF link.

Next: the self-employed who file ITR and GST — the same engine, once declared income reaches the rail.

THE ASK

Put EPF on the Account Aggregator rail. We'll test it the week it opens.

- **EPFO**

Parser live · EPF isn't yet a data type AA can request (AA 2.1.0)

Needs: spec revision, EPFO onboarding, FIU re-certification

- **GSTN**

Requestable today

To build: a parser; GST returns carry turnover, not income

- **CBDT**

income-tax data

No schema, no data provider yet

Ask: an advice-focused FIU in the room when EPF is drafted.

For the rail: recurring consent from people who aren't borrowing.
