

Hey! 🙌

I'm Finwy – Finwiser's **SEBI RIA licensed** AI advisor.

Bank, MFs, FDs, NPS, loans, credit cards – I see it all.

No entries. No manual work. No guesswork.

Your complete picture. All in 3 minutes.

Finwiser

₹1-2 lakh/year for a human advisor. ₹199/month for me. 80M+ Indians can finally afford real financial advice.

The Problem

Everyone's investing. Nobody's advising.

HIGH RISK

Retiring Father

60 years · Pension income

PORTFOLIO IN EQUITY **70%**

Invested in equity NFOs on friends' advice. Can't recover from a single bad year. **No one sees the full picture.**

NO DIVERSIFICATION

Working Mother

35 years · ₹20K/mo SIPs

SIPS IN LARGE-CAP ONLY **4 of 4**

Daughter needs this money in 8 years. She thinks "**SIP = good investing**" — nobody told her about the asterisk.

DECISION PARALYSIS

Fresh Graduate

24 years · ₹2.5L in savings

LOST TO INFLATION / YEAR **₹6,250**

Opens 4 MF apps, sees **400+ options**, gets paralyzed, does nothing. Money bleeds to inflation.

Every one of them has a financial app. None tell you what's right for YOU. A human advisor does — for ₹1-2 lakh/year. 80M+ Indians can't afford that.

Your goals, achieved. Finwiser knows where every rupee must go.

The Aha Moment

Within 60 seconds, Finwiser tells each of them something no app has ever said.

To the father: *"70% of your portfolio is in equity. At 60 with pension income, that's dangerous. Here's your rebalancing plan — move ₹8L to debt funds, keep ₹3L in equity."*

To the working woman: *"All 4 SIPs are large-cap equity. Your daughter needs this money in 8 years. Move ₹3L to a balanced advantage fund before the next correction wipes out 2 years of gains."*

To the graduate: *"₹2.5L in savings is losing ₹6,250/year to inflation. Your best first fund — based on your risk profile and surplus — is locked. ₹49 to unlock."*

To all of them: *"You're saving 32% of your income — that's better than 80% of people your age. You're on track. Keep going."*

No other app in India can say any of this — because nobody else has your full picture.

Life Keeps Asking

Every month brings a new money question. Only Finwiser answers — it sees every account, every goal.

"Where's all my money going?"

"Can I still afford my SIPs?"

"Market crashed — am I okay?"

"Am I on track for retirement?"

"₹3L bonus — now what?"

"Tax season — save how much?"

FINWISER

₹3L surplus this month.

Daughter's education:

₹2.1L short

Emergency fund: **on track**

Retirement: **91% funded**

₹2.1L → **balanced advantage fund**

₹90K → **liquid fund**

Invest for daughter's education >

Every answer from her real bank data, real goals, real portfolio.

Life creates the questions. Only Finwiser has the answers.

Go-to-Market: WhatsApp First

"Know your net worth in 3 minutes. Just WhatsApp us."

Why this works

- Zero friction**
WhatsApp is on every Indian phone — no app download, no sign-up
- Aha before commitment**
Real net worth shown for free — value delivered before any ask
- Structural virality**
Auto-generated forward message after reveal — one share = 50 leads in a tech group
- CAC near-zero**
One forward in a tech company group = 50 leads overnight
- Seamless handoff**
One-tap deep link into the app — AA consent already done, zero re-entry

Your net worth in 3 minutes. No app download. Zero CAC.

Business Model

Free builds the habit. ₹49 captures the intent. ₹199 earns the relationship.

The analysis is free. The action is paid.

FREE — FOREVER

She sees her full financial picture for the first time. Every day, Morning Pulse keeps her coming back.

₹49 — THE MOMENT

Finwiser shows her what's wrong. The fix is locked. ₹49 to unlock. She pays instantly.

₹199/MONTH — THE RELATIONSHIP

She starts asking questions weekly. She upgrades. The advisor is now part of her life.

LICENSES CLEARED

A closer who built the product. Not a builder learning to sell.

Why Now?

AA hit inflection

Account Aggregator crossed 100M+ cumulative consents in 2024. FIP onboarding accelerated 3x. Real-time financial data access wasn't possible 2 years ago.

SEBI favors fiduciary model

Regulatory tailwind — SEBI actively promoting RIA over distribution. Market moving toward fiduciary advice.

AI makes advisory scalable

LLMs deliver personalized financial guidance at ₹5-10/session vs ₹5,000-10,000 for human advisors.

Demand proven, gap open

Net worth trackers got 60K+ downloads for a dashboard with no advice. The next layer — advisory — is wide open.

AA + AI + SEBI tailwind. This wasn't possible 2 years ago.

The Vision

NOW

India's most affordable SEBI-registered financial advisor

YEAR 2

Add execution — invest in MFs, NPS, gold, FDs directly in-app

YEAR 3-5

Full-stack wealth platform — advisory + execution + insurance + tax

Every Indian earning ₹50,000+ a month deserves a financial advisor in their pocket — one that knows their numbers, works 24/7, has zero conflicts of interest, and costs less than one dinner out.

The only platform where advice and execution will be legally unified under a SEBI RIA + broker license, with AI that knows every rupee.

Finwiser

One app to solve India's entire financial life.
